Men's Perfume «NAJOT» is, without a doubt, one of the most significant representatives of the “for him” line produced by «NAJOT». It, in all modesty, is the most balanced and textured embodiment of all traits inherent in really high-class men's perfumery. This aroma sings the hymn of refinement, charisma, natural masculinity and sexuality of a modern gentleman. This smell can really be called a “reference” - it has not conservative snobbery. Suitable for strengthening marriage and family.
